

INTEGRATED MANAGEMENT SYSTEM POLICY

euro-pegaz Sp. z o.o. TRANSPORT Sp. k. and euro-pegaz Sp. z o.o. LOGISTYKA Sp. k.

euro-pegaz increases the value of the company by building an organization that is as flexible and open to the needs of its customers as possible in the full range of logistics services.

The above goals of the companies are achieved through a strategy of continuous improvement, minimizing its negative impact on the environment.

euro-pegaz guarantees its customers that the goods entrusted to us, when stored, processed and transported in safe and adapted to its specific conditions, will reach the right place and at the right time.

We want to implement our assumptions in the field of the Quality Management System by:

- recognizing, understanding and meeting the requirements of our internal and external clients;
- effective use of the potential and creativity of our employees and suppliers;
- recognizing, understanding and responding to internal and external opportunities and threats.

We want to implement our assumptions in the field of the Environmental Management System by:

- identifying and complying with the legal requirements that apply to our business;
- continuous monitoring of the organisation's environmental impact and increasing the environmental awareness of the staff;
- reduction of losses in processes and reduction of emissions of environmental pollutants through management efficiency and selection of appropriate technologies.

We want to implement our assumptions in the field of the HACCP Management System by:

- identifying and complying with the legal requirements that apply to our business;
- ensuring hygiene during the performance of the service;
- effective control of threats.

The guarantee of the implementation of the Integrated Management System Policy are:

- implemented and improved Management System compliant with the requirements of ISO 9001, ISO 14001 and Codex Alimentarius;
- management's commitment to improving the quality of processes and services provided, as well as a friendly impact on the environment
- the accepted principle of employee responsibility for the quality of work performed and its impact on the environment.

President

euro-pegaz Sp. z o.o. TRANSPORT Sp. k. and euro-pegaz Sp. z o.o. LOGISTYKA Sp. k.
