

SECURITY POLICY

Euro-Pegaz Transport sp. z o.o.

Euro-Pegaz wants to be a reliable logistics partner, ensuring safety and development for employees and contractors based on modern pro-ecological solutions.

Euro-Pegaz guarantees its customers that the goods entrusted to us, transported in safe and adapted to its specific conditions, will reach the right place and at the right time.

We want to implement our assumptions in the field of the Safety Management System in the Supply Chain by:

- recognizing, understanding and meeting the requirements of our internal and external clients;
- effective use of the potential and creativity of our employees and suppliers / carriers;
- recognizing, understanding and responding to internal and external threats and risks;
- identifying and complying with the legal requirements that apply to our business;
- continuous monitoring and evaluation of our activities in relation to safety and raising the awareness of the crew and contractors in this regard;
- reduction of threats and losses in processes through the effectiveness of management and selection of appropriate technologies and safeguards;
- continuous improvement strategy

The guarantee of the implementation of the Security Policy are:

- implemented and improved Supply Chain Safety Management System compliant with the requirements of ISO 28000;
- management involvement in activities for security in the supply chain;
- the accepted principle of employees' responsibility for the quality of work performed and its impact on safety;
- once a year safety goals and programs set by top management while providing resources for their implementation, both in road and intermodal transport

The Euro-Pegaz Safety Policy is systematically assessed and updated, known to the company's employees and made available to all interested parties.

President
Euro-Pegaz Transport sp. z o.o.
Agnieszka Wąs-Frąckowiak
